

FOR IMMEDIATE RELEASE

### **Premier Tax and Business Services Introduces Think Big Workshop**

Creve Coeur, Missouri – June 28th, 2015 – Business consultant David Robson is pleased to announce he has added Think Big Workshop to his firm's services. Think Big Workshop is a mastermind group for business professionals and small business owners. "A mastermind group is a small group of individuals who meet on a regular basis to discuss and solve problems," said Robson. "It gives the members a chance to get solutions that they would not be able to accomplish on their own in a reasonable amount of time. "

Robson continued. "A perfect example of a successful mastermind group was the group of technicians that solved the crisis on the Apollo 13 mission. If left to a single individual the outcome may not have been a success." Although we don't expect the group to deal with such a crisis there really is no limit to what the group can solve.

The membership fee is being offered at the discounted rate of \$600 for a limited time, but the group will fill quickly at this rate. Membership includes personalized one on one sessions with the facilitator, access to a private discussion forum and exclusive content, in addition to the regularly scheduled calls.

The group is being facilitated by David Robson. He has worked in a variety of roles during his career and is familiar with the inner workings of a small business. He holds the designation of Certified Guerilla Marketing Trainer and Coach. The General Services Administration and U. S. Forest Service have both recognized his skills with awards for Excellence in Customer Service. He is the owner and founder of Premier Services Inc. (dba Premier Tax and Business Services). Premier Tax and Business Services is celebrating its 20<sup>th</sup> Anniversary in business.
